Consensus Recommendation: 04-03

Submitted for discussion by the Waste Operations Task Force, October 16, 2003

Title: Addition to S&T Landfills Scoping Plan

Background:

At the October 14, 2003, Waste Operations Task Force meeting, Board members discussed the S&T Landfills Scoping Plan. The group reviewed and evaluated the current proposed plan. The CAB is optimistic that the source of contamination in the S&T Landfills areas will be identified.

Concern:

The CAB is concerned that the proposed Scoping Plan may not identify the source of contamination in the S&T Landfills area.

Recommendation:

The Board requests that DOE should include installation of a fourth transect in the proposed S&T Landfills Scoping Plan. The transect should be located diagonally on the northeast corner of the T Landfill. This will provide additional information that may prove helpful in determining the source.

Approved by consensus 10/16/03
